

Improvement Project Sustainability Assessment

Sustainability Factor	Comments/Action Items
<p>1. Perceived Value</p> <ul style="list-style-type: none"> <input type="checkbox"/> The change was inspired by credible sources (e.g., evidence-based guidelines, leading research entities) <input type="checkbox"/> Pilot outcomes have been collected. Data, staff testimonials, and patient stories help demonstrate the value of the change. <input type="checkbox"/> Staff believe in the benefits of the change and can clearly describe these benefits 	
<p>2. Complexity of the Change</p> <ul style="list-style-type: none"> <input type="checkbox"/> The impact on staff has been assessed. Change either has minimal impact on staff workflows and responsibilities, or the pilot team has taken multiple approaches to streamline new processes, reduce variability, and make these new processes staff/user-friendly. <input type="checkbox"/> Adaptability of the change has been determined and shared to staff. Staff have clear understanding of what can/cannot be changed when implementing this initiative 	
<p>3. Measurement, Monitoring, and Feedback</p> <ul style="list-style-type: none"> <input type="checkbox"/> This initiative is accompanied by a measurement plan to capture and monitor improvement measures. <input type="checkbox"/> Measurement plan clearly articulates how data will be collected and monitored. Staff are trained in how to collect/track this data. <input type="checkbox"/> There is a feedback system for staff to share progress and challenges. 	
<p>4. Leadership</p> <p><i>Senior Executives</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> Senior Leadership have established genuine commitment and support for changes <p><i>Managers and Physician Leaders</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> Get involved in the change, understand it, and promote it <input type="checkbox"/> Take personal responsibility and allocate sufficient time and resources to ensure the change is sustained <input type="checkbox"/> Are trustworthy, influential, respected and believable <p><i>Pilot Champions</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> Project manager(s) and pilot champion(s) are identified and have the requisite passion, time, and commitment to support the change

Sustainability Factor	Comments/Action Items
<p>5. Staff</p> <ul style="list-style-type: none"> <input type="checkbox"/> Staff have been given an opportunity to ask questions, share ideas, and voice concern about the improvement initiative. Questions and concerns have been addressed in a timely and considerate manner. <input type="checkbox"/> Staff have the capacity to work in the new way (have the time and resources needed) <input type="checkbox"/> Staff have the technical knowledge and skills needed to work in the new way. Trainings, checklists, workflows, and reminder systems have been created to help staff learn and adopt these changes. 	
<p>6. Processes, Equipment, and Technology</p> <ul style="list-style-type: none"> <input type="checkbox"/> Training requirements are identified including content, duration, faculty, and delivery mechanism (e.g., conference, classroom, simulation). Staffing plans to support training are identified (e.g., replacement staff as necessary) <input type="checkbox"/> Trainings, checklists, workflows, and reminder systems have been created to help staff learn/adopt these changes. <input type="checkbox"/> Facilities, equipment, and technology needs have been clearly defined and funding/budget is available to address any facility, equipment, or technology needs. <input type="checkbox"/> IT systems have been modified/optimized to support this change. 	
<p>7. Organizational Fit</p> <ul style="list-style-type: none"> <input type="checkbox"/> Change aligns with strategic priorities and the organizational goals <input type="checkbox"/> The organization has successfully sustained improvement initiatives in the past <input type="checkbox"/> Organization and staff have a “can-do” attitude and embrace change, innovation, and improvement. <input type="checkbox"/> There are no competing projects or priorities that might detract from staff being able to implement/sustain this initiative. 	
<p>8. Infrastructure for Sustainability</p> <ul style="list-style-type: none"> <input type="checkbox"/> There is an oversight/management team in place that has a defined approach for executing and monitoring all initiative changes <input type="checkbox"/> The management team regularly reviews, monitors, and adjusts changes based on performance measures and staff feedback. <input type="checkbox"/> There is a process in place for staff to provide feedback and escalate/resolve issues
